

Fields Ertel Road Intersection Improvement Projects

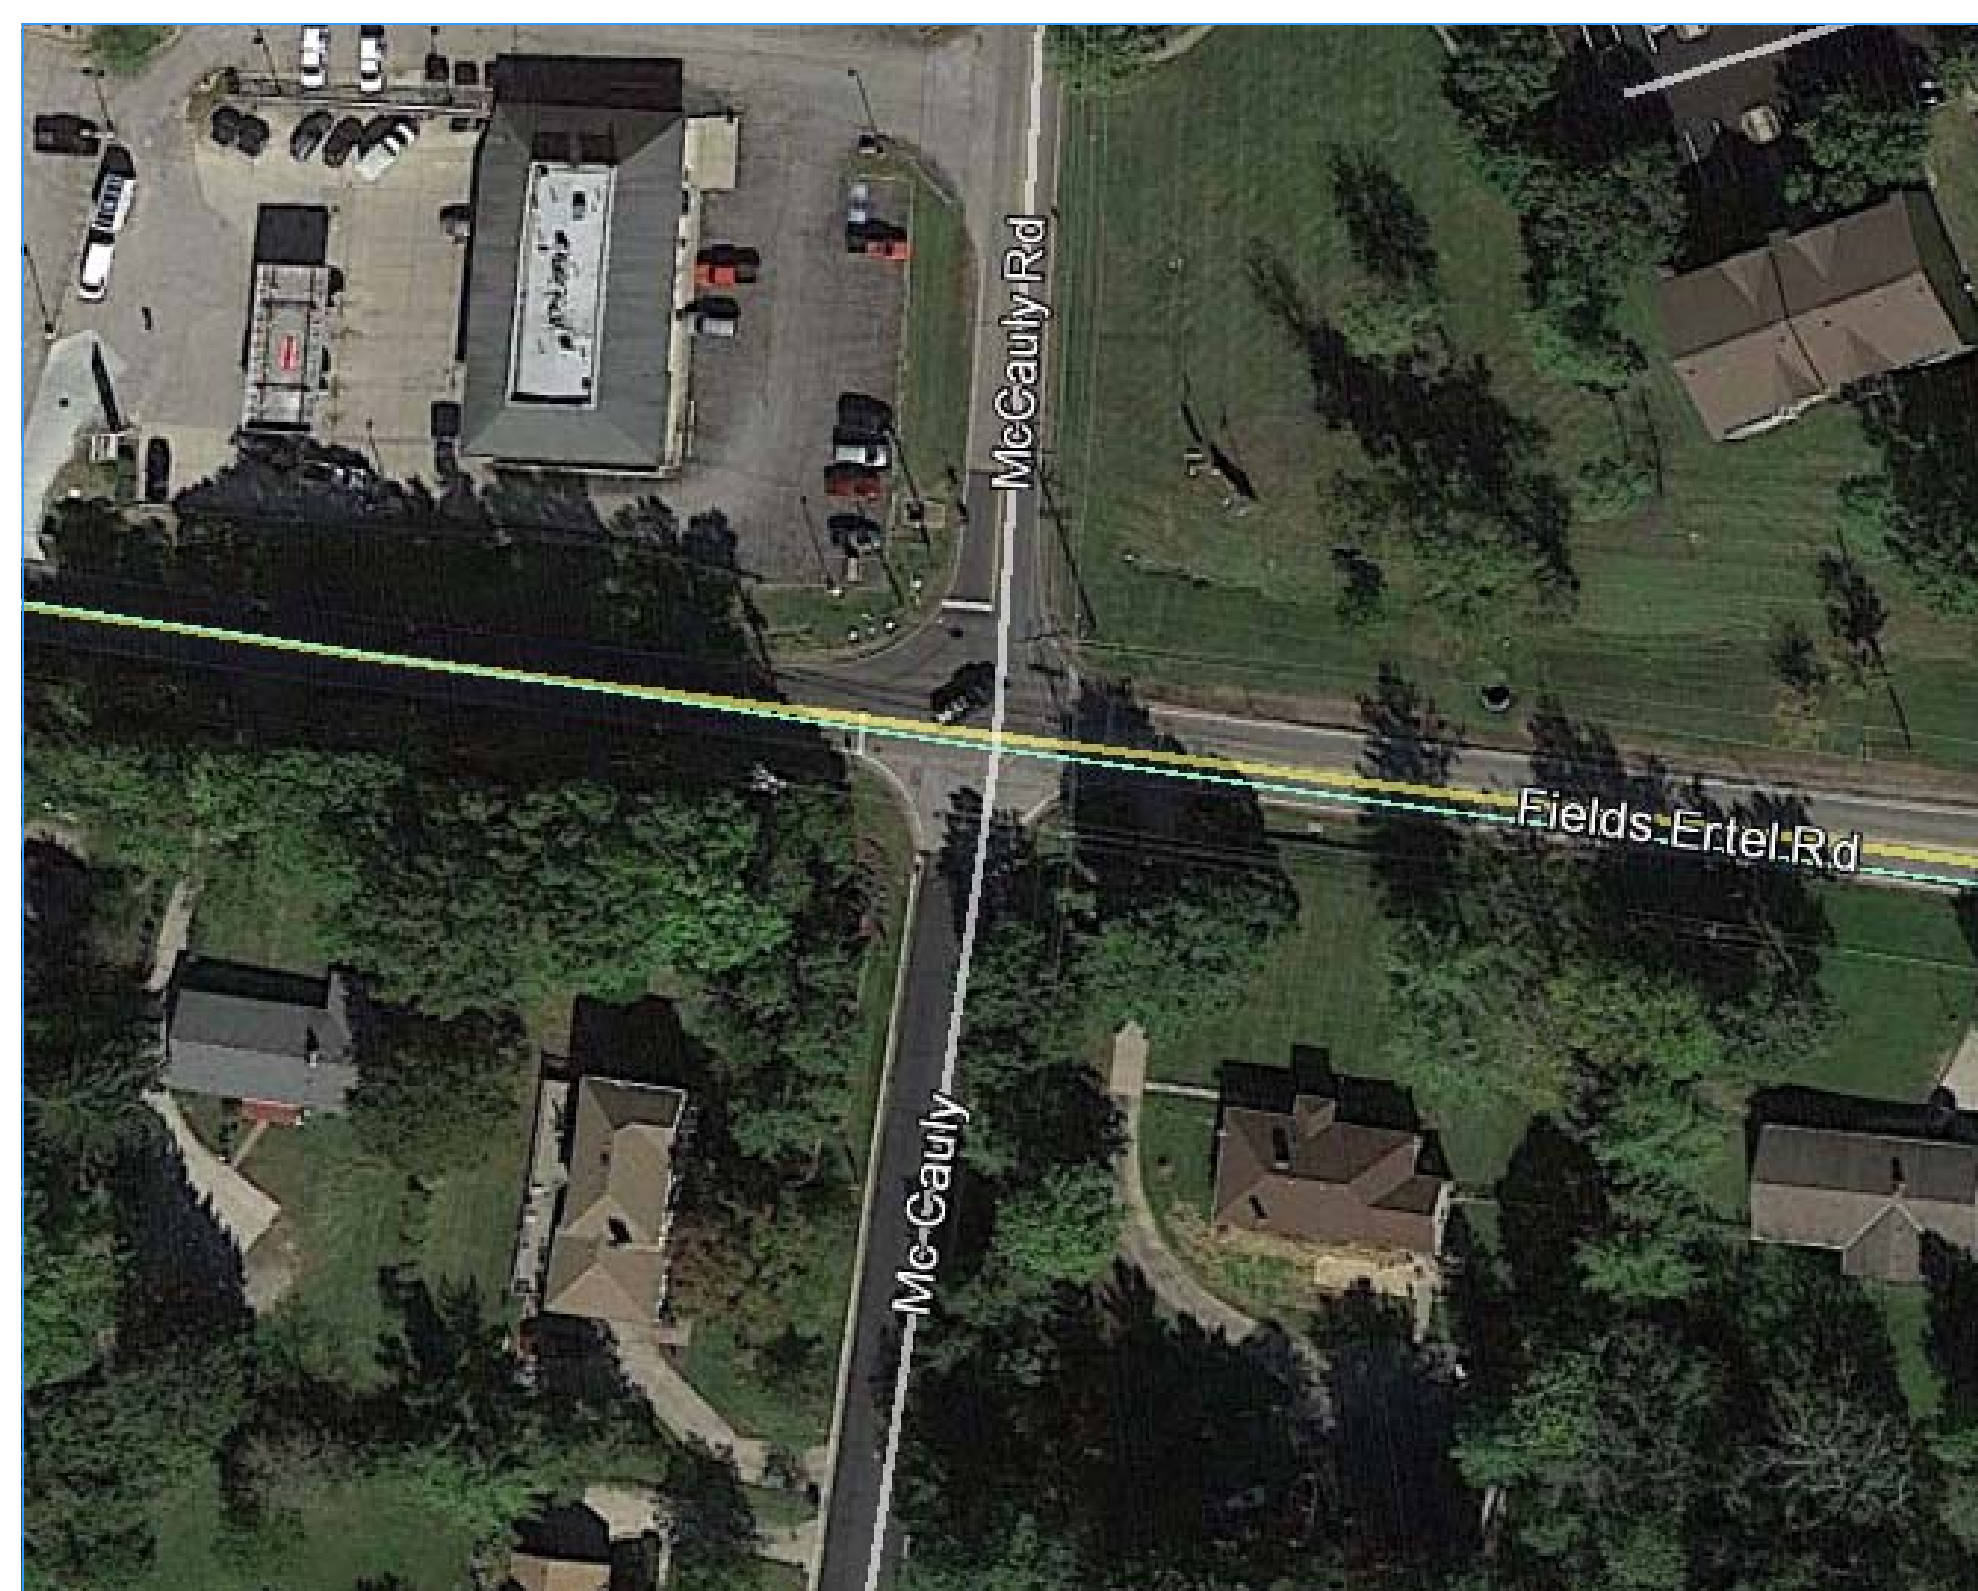

PROJECT INFORMATION

Fields Ertel & McCauly

Project Description

Hamilton County is proposing improvements to the intersection of Fields Ertel Road and McCauly Road. Proposed improvements include construction of a 500' eastbound turn lane on Fields Ertel Road, a 425' westbound right turn lane on Fields Ertel Road, a 375' southbound right turn lane on McCauly Road, and a span wire traffic signal installation. The project will also include drainage improvements and resurfacing.

Purpose and Need

Fields Ertel & Conrey

Project Description

Hamilton County is proposing improvements to the intersection of Fields Ertel Road and Conrey Road. Two options are being considered, which include a modern roundabout and a signalized intersection. The project will also include curb, drainage improvements, and resurfacing.

Purpose and Need

The purpose of the project is to reduce congestion at the Fields Ertel Road and Conrey Road intersection and to improve system linkage within Hamilton, Butler, and Warren Counties.

Fields Ertel & Butler-Warren

Project Description

Hamilton County is proposing improvements to the intersection of Fields Ertel Road and Butler-Warren Road. Two options are being considered, which include a modern roundabout and a signalized intersection. The improvements will likely shift Butler-Warren Road to line up with 1st Avenue. The project will also include curb, drainage improvements, and resurfacing.

Purpose and Need

The purpose of the project is to reduce congestion at the Fields Ertel Road and Butler-Warren Road intersection.
