LIMITS OF PROJECT:

The project will involve the improvements of **Kugler Mill Road** from Blue Ash Road to Montgomery Road.

PROJECT DETAILS:

Work will include:

- Utility relocations performed by Contractors for each respective Utility Company. For example, Duke Energy, Spectrum, Cincinnati Bell, etc.
- Installation of a new Greater Cincinnati Water Works water main.
- Complete removal of the existing roadway pavement.
- Construction of asphalt pavement.
- Construction of vertical concrete curbs.
- Construction of storm sewer system.
- Construction of concrete sidewalks on the north side of Kugler Mill Rd.
- Reconstruction of driveways and aprons as necessary to meet the proposed improvements.
- Construction of a right turn lane at the intersection of Kugler Mill Rd and Montgomery Rd.
- Restoration of disturbed grass areas with topsoil and seed.

MAINTENANCE OF TRAFFIC:

During the construction of the roadway improvements, the road will be **closed** and detoured for all east and west bound through TRAFFIC, but will remain **open** for ONLY the *residential traffic (Home and Businesses)*. It is important for the *residential traffic* to pay attention to the daily work activity and to drive **SLOWLY** through the construction areas. All other East and West Bound TRAFFIC will be required to follow the posted detour.

Driveway traffic will be maintained to the greatest extent possible. There will be periods of time when driveway traffic will be disrupted especially during the removal of the existing driveway aprons; the curing period for new concrete curbs and a new concrete driveway apron. The Contractor will work with the Township's Construction Inspector and the individual property owners to minimize the disruption to driveway access and/or parking areas.
