Subject: variance rear setback table 4-6

Location: 7200 Quail Hollow Rd Cincinnati, Oh 45243

Attn: To whom it may concern

This is to ask for a variance to rear setback table 4-6.

The home owners, LeAnne and Paul Berlage, would like to have an addition to their house. They like their house and neighborhood. Their house is just too small they would like to have an addition added to add to their kitchen and bedrooms. There is an existing covered porch that is 9 feet into the setback already we are just going to add 1ft more and the length of the house. Due to the shape of our yard this is the only way to add on to their house.
