The top edge of the sign will not cut into
the metal coping running along
the top of the sign band

1/2" Flex Conduit
from sign thru wall
to power supply

ELECTRICAL NOTES

Sign Company DOES NOT provide primary electrical to sign.
Power to the sign must be done by a licensed electrical contractor or licensed electrician.
Each sign must have:
1. A minimum of one dedicated 120V 20A circuit
2. Junction box installed within 6 feet of sign
3. Three wires: Line, Ground, Neutral

*Sign must conform to the criteria set forth in the lease agreement. It is the responsibility of the tenant to ensure that his or her sign contractor manufactures the sign and makes installations in accordance with all local and state ordinances.
