Sycamore Township  
Department of Planning and Zoning  
8540 Kenwood Road  
Cincinnati, OH 45236

Dear Sirs/Madams,

We are excited to share with you our vision for the expansion of our aesthetic surgical practice at Cincinnati Facial Plastic Surgery. For over 9 years we have focused on providing world class aesthetic procedures in our Kenwood office and are expanding our office's footprint to accommodate our growing patient demands. We now employ 17 team members and are honored to have patients come from not just the tristate area, but from the UK, the Middle East, Canada, and Mexico, as well as within the US as far away as California, Alaska, Florida, New York, and Connecticut. Patients seek out our expertise as internationally renowned experts as a result of international journal publications and textbook chapters, as well as regular lecturing at international conferences (Rio, London, and Dubai this year). With increased reach and reputation, patients have requested additional luxury services to be offered as part of their visit to the area. We offer concierge services and have acquired a luxury SUV for airport and hotel transfers and now are expanding our service offerings for the continuum of patient care within the office to include aesthetician services, massage, hair coloring and styling pre- and postoperatively, and anti-aging medicine services such as hormone replacement. These services will complement our current state-of-the-art nonsurgical injectable techniques in Botox, Juvederm, and noninvasive body contouring such as CoolSculpting.

To achieve this exciting growth in our medical practice and enhancement of patient-focused medical service offerings, we need to expand our practice to occupy the entire first floor of the Cincinnati Facial Plastics building at 7763 Montgomery Road. In addition to our vision for the interior renovation of the first floor to create a world-class therapeutic medical suite, we are also planning a significant exterior renovation to beautify our property. The renovations and expanded medical practice on the first floor are a critical component of the financing pro forma to make the exterior improvements of the CFP building a reality.

We greatly appreciate the opportunity to share this vision with you, our Sycamore Township Administrators, and sincerely hope that you share our pride in the level of esteem with which we have become viewed in the aesthetic medical marketplace.

With best personal regards,

Alexander S. Donath, MD
