By this email as applicant and agent for the owner, I withdraw our PUD II application.

We will follow the directives you've outlined below and let you know when the work is completed so you can abate the violation.

Thanks!

Rob,

Concrete is fine and probably more appropriate given the weight of vehicles. We discussed placing the trees along the northern property line, but final placement along that line was left to your discretion.

We currently have the case marked a continued of our agenda. In order to "clear" it, we will need a withdrawal request from the applicant.

Let us know when improvements are completed and we can abate the violation.

Let me know if you need anything else from me.

Take care,

Skylor

Greg & Sklor:

Greif is agreeable to paving and putting in the 2 trees we talked about. They would like to pave in concrete instead of asphalt if that's ok with you – and they asked if you had a tree species or type in mind – and remind me again where you'd like them placed.
