

Ohio K-12 School Staff Vaccination Program Schedule

School districts participating in the Ohio's K-12 School Staff Vaccination Program have committed to full-time classroom or hybrid learning by March 1, 2021. Vaccination of Ohio's K-12 teachers and school employees will be staggered based upon available vaccine supply, with the goal of offering all school staff their first dose by March 1. Below is a schedule showing the week during which a county will begin receiving vaccine for this program. Click on the link for each week to view a complete list of participating school districts.

Ohio's K-12 School Staff Vaccination Program Timeline
