With Smart911, users are able to create a Safety Profile that includes information such as: people living in the household, pictures, animal information, medical information, as well as access codes into their residence. Information provided is completely private & secure. Smart911 is a nationwide system. If you are traveling in an area that subscribes to Smart911, your Safety Profile will be available to that 9-1-1 Emergency Communications Center if you dial 9-1-1.
