The meeting was called to order at 9:00 am. Present for the meeting were, President Weidman, Vice President Bishop, Trustee Kent, Fiscal Officer Porter, Law Director Miller, Administrator Raabe, EMS/Fire Director Jetter, Planning/Zoning Administrator/Assistant Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown, and Sheriff's Liaison Lt. A discussion regarding installation of programmable locks at all parks ensued with the suggestion of getting more cost estimates.

Community information classes will begin October 16th with couponing at the North Fire Station/Community room. Classes will run from October to March (two per month). All classes are free-except for Debbie Gardner's Self-Defense class. Trustees directed Mr. McKeown to charge \$10 for residents and \$20 per non-resident in order to recoup Township cost.

Heitmeyer Farms Civic Association - Sue Palermo-Mrs. Palermo introduced herself as the new liaison and invited everyone to attend the Heitmeyer Farms Civic Association Meeting on Wednesday, October 20, 2010 at 7:00 pm at the Administration Building, 8540 Kenwood Road.

Dillonvale Water Works Project – Mr. Kellums explained that Cincinnati Water Works (CWW) is only doing a half-width mill and fill on Mantell. He would like to partner with them to make it a full-width job. This would cost the Township \$20,000.00 plus an additional \$53,000.00 if fiber mat is installed. This would aide in keeping smooth pavement despite all of the bus turns on the road surface. Trustee Weidman made a motion to approve the project at the \$73,000.00 level, Trustee Kent seconded the motion. Vote: All Aye.

Kenwood Crossing I – Driveway – Mr. Kellums explained that the current owner, who purchased the property from Neyer, does not want to lose any parking spaces due to installation of a front and rear drive. The original agreement with Neyer was that when Pine Drive was extended there would be one drive that was right-in and right-out only – any change would require a modification in the zoning resolution already in effect. Attorney Miller will have further discussions on the matter with Mr. Bickford and Mr. Kellums.

Fire/EMS Invoices and Purchase Request – Chief Jetter presented the purchase requests and invoices for the Fire Department. The Trustees approved these requests and invoices as presented.

Instead of moving the “no parking” lane, Chief Jetter recommended the option of painting the curbs in front of the hydrants as “no parking” and leaving everything else as it currently exists. Mr. Bishop made a motion to leave the fire lane alone and put in stripes/paint the curbs in front of the newly installed hydrants, seconded by Mr. Weidman. Vote: All Aye.

Professional Photography – Website – Mr. Bickford asked if there was any interests in having a professional photographer take photos of the parks for the website; the cost would be under \$1,000.00. The Trustees indicated this could be done in-house instead of soliciting professional help.

Video Surveillance – Mr. Bickford presented information on SmartView video surveillance systems, such as the units in the Deer Park School System. Analog cameras with infra-red capability would be used. Bob Meyer and High Point Parks would only

be partially covered due to lack of poles for mounting. The total cost estimate is \$24,956.00 with the installation being done by the Maintenance Department. Mr. Weidman made a motion, seconded by Mr. Bishop, to proceed with the purchase of this system. Vote: All Aye.

RECORD OF PROCEEDINGS

Minutes of the Trustees of Sycamore Township Meeting Sycamore Township, Hamilton County, Ohio February 16, 2011

The meeting was called to order at 9:00 a.m. Present for the meeting were, President Weidman, Vice President Bishop, Trustee Kent, Fiscal Officer Porter, Law Director Miller, Administrator Raabe, EMS/Fire Director Jetter, Planning/Zoning Administrator/Assistant Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown, and Sheriff's Liaison Lt. Reid.

Fire/EMS Invoices and Purchase Request – Chief Jetter presented the Fire/EMS invoices and purchase requests with no questions or comments from the Trustees.

Exempt Properties in the Township – Chief Jetter presented information he had assembled on additional ways to seek revenue from exempt properties in the Township – perhaps by charging an inspection fee. He calculated that there was approximately \$9,000,000 of exempt valuation that would net \$42,000 to the Fire Department if taxed. This includes 39 residential structures under CMHA that don't pay taxes but still need inspections. There were also 22 churches, 1 institution and 1 public school. Chief Jetter will continue to collect more information and study the process.

EMS Billing – Trustee Weidman led a discussion on current EMS billing. The Township is currently using Medicount but the Fire Chief is also talking to Ohio Billing and M.B.I. for future use. The Fire Department is currently able to recoup only 40% on auto accidents and 70% on EMS runs. A discussion ensued over whether to turn over the unpaid bills of non-Township residents to a collections agency. It was also pointed out that Amberly Village is billing for police services – Lt. Reid will check on it and get more information.

Internet Sweepstakes Cafes – Trustee Weidman led a discussion on the possibility that these cafes might be an illegal gambling scam where clients buy a phone card and use it to gamble. Sixteen communities have put a six month moratorium on allowing these cafes, including West Chester and Miamisburg and Trustee Weidman questioned whether Sycamore Township should do the same. Apparently the State's Attorney General will not aggressively go after these cafes but will help out the local communities. A motion was made to prepare a resolution for a six month moratorium by Mr. Bishop, seconded by Mr. Kent. Vote: All Aye.

Parks and Recreation Update – Mr. McKeown reported that he was recommending going with Cincinnati Custom Street Machines to run the upcoming car show and to expect 100 – 125 cars entered in the "open" class. The Park Committee recommended using Mitch Ryder And The Detroit Wheels as entertainment (\$8,000 to \$8,500) or else go local with groups like Ooh La La or Eight Days A Week.

Sheriff Patrol Update – Lt. Reid reported a 16.73% decrease in reported crime from 2009–2010 with a 5% decrease county-wide (at 2006 levels). Sycamore Township was #1 in decrease with Columbia Township immediately following. He also reported that there was a 30% decrease in sex offender cases county-wide and that Sycamore Township currently has 4 registered sex offenders.

Kenwood Rd Access Management Study RFQ Results – Mr. Kellums reported that eight submittals were received for review and that TEC was ranked first with KZF at second. Sycamore Township will handle the contract as opposed to Hamilton County. A motion was made to open negotiations by Mr. Kent and seconded by Mr. Bishop. Vote: All Aye.

2011 Road Improvement – Mr. Kellums led a discussion on how much the Board wants to spend on road projects this year. He recommends \$1.5 million to do 32 streets – a total of 6.92 miles of roadway with a majority of it in Rossmoyne. As a rough estimate, this would come to approximately 28 miles of the Township’s total 52 miles being completed and in good shape. Comments were made regarding the possibility of pursuing a road levy at some point down the road and Trustee Weidman recommended tabling the discussion until the next Workshop. It was pointed out that, in order to save time, the Board could vote on a motion to proceed with going out to bid and then non-perform on it (or portions of it) if the necessity arose. A motion to go out to bid was made by Mr. Bishop, seconded by Mr. Kent. Vote: All Aye.

Purchase Orders Over \$2,500.00 – Mr. Raabe presented two purchase orders for approval, both relating to bands for the Festival in Sycamore 2011:

Grand Funk	Paradigm Agency	\$30,000.00
Ambrosia	EarthTone Music	\$ 6,500.00

A motion was made by Mr. Bishop, seconded by Mr. Kent, to approve these requests.

Since the Workshop was held on Wednesday and no new business was anticipated, Mr. Raabe polled the Board as to the possibility of cancelling the Thursday evening meeting. A motion to cancel the meeting was made by Mr. Kent and seconded by Mr. Weidman. Vote: All Aye.

Schedule – Mr. Raabe presented the upcoming schedule of events.

The Receipts and Disbursements of February 16, 2011 were read by the Fiscal Officer and are hereby made a part of these Minutes.

I hereby certify that the money for payment of these bills is in the fund provided and duly and properly appropriated.

RECORD OF PROCEEDINGS

Minutes of the Trustees of Sycamore Township Meeting Sycamore Township, Hamilton County, Ohio May 3, 2011

The meeting was called to order at 9:00 a.m. Present for the meeting were, President Weidman, Vice President Bishop, Trustee Connor, Law Director Miller, Administrator Raabe, EMS/Fire Director Jetter, Planning/Zoning Administrator/Assistant Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown, and Cpl. Sabers was present for Lt. Reid. Fiscal Officer Porter and Sheriff's Liaison Lt. Reid were absent.

Fire/EMS Invoices and Purchase Request – There were no questions from the Trustees. Chief Jetter reported that during the week of June 21st, the Fire Department will undergo an International Organization for Standardization (ISO) inspection which occurs every 12 years. He also informed the Trustees that the partially completed high rise might be a potential problem area.

The Chief also wants to apply for a FEMA grant to replace the aging heart monitors; seven units at \$30,000 per unit will cost \$210,000. If Sycamore's population with the new Census is under 20,000, it would only require a 5% payment of this amount. He added that there was approximately a 48% chance of success.

Parks and Recreation Update – Mr. McKeown announced that the first concert behind the Administration Building will be Saturday, May 14th, 2011 starting at 6:00 p.m. with music by The Bloody Tinth. The Park Committee will man the food and beverage booths. The Show & Shine Calendar is now out on the marketplace and has the Sycamore Township ad in it; Mr. McKeown passed a sample around, as well as a sample concert brochure.

Mr. McKeown reported that baseball fields have been too wet to play, with 8 games played and 15 rainouts. The dugouts at Schuler were under water and thought has been given to putting in a dry well to pump out more water. Moeller High School wants to move most of its Varsity schedule to the Shuler fields.

Sheriff Patrol Update - Steve Sabers sat in for Lt. Reid, who is on vacation. There was no report of any incidents.

Upcoming Public Hearing – Mr. Bickford reported that there is a Public Hearing set for 6:30 p.m. on signage for The Salon, who is requesting a 30% increase in the size of the sign.

Kemper Road Water Tower – Mr. Bickford stated that Cincinnati Water Works needs a letter of permission from the Township to proceed with the building of the water tower.

It will be a 300,000 gallon tank with six parking spaces. The Zoning Board is requesting better landscaping around the perimeter along the barbed wire fence.

Mr. Bickford also reported a debris nuisance violation at 8475 St. Clair Avenue. Montgomery Road Sidewalks – Phase II Bid Results – Mr. Kellums reported that the April 26th bid opening revealed that Prus Construction was low bid at \$766,480.50 for the approximate 1500’ sidewalk project. Bruce Brandstetter, of Brandstetter/Carroll, recommended rejecting all of the bids due to excessive cost. Mr. Brandstetter is going to speak with the Ohio Department of Transportation (ODOT) about replacing the expensive set back high wall required with a 2’ wall right at the sidewalk. While this would be directly above the existing sewer, it would greatly reduce the overall cost. It would also not require a fence placed on top of the wall.

Purchase Orders Over \$2,500.00 – Mr. Raabe presented the following purchase orders over \$2,500 for payment:

Huntington Bank	Kemper Gold Coast - Principle Payment	\$52,950.00

Mr. Raabe informed the Board that Duke Energy wants to lease the parcel at 11745 Solzman (the old Fire Station) for a CDL training spot for their single axle vehicles. They would be willing to pave the area where the building footprint was originally. A discussion ensued to ask Duke about stormwater retention requirements and any interference with recycling efforts. Mr. Raabe is to also check on the availability of the red recycling bins for future use.

Mr. Porter arrived at 9:56 a.m.

Mr. Miller stated that the Neyer Project at Hosbrook Road was not passed as a public project at this time by Brenda Wehmer of Peck, Shaffer & Williams, LLP, although this is not necessarily a final decision.

Sheriff Patrol Update – Lt. Reid reported that the DARE graduation at St. Vincent was a success and Trustee Bishop was in attendance. The next graduation event will be at All Saints School on May 27th, at 1:00 p.m.

Lt. The Township will plan on doing this program again in the fall.

Lt. Reid stated that he participated in the county wide emergency earthquake drill at the EMA Radcliffe facility and further work was necessary to be adequately prepared.

Mr. Jim LaBarbara, seated in the audience, interjected that there seemed to be a coyote problem and a discussion ensued on how to dispose of coyotes coming onto private property; the SPCA seemed to be the only means of recourse.

Upcoming Public Hearing – Mr. Bickford reported that there will be a Public Hearing at 6:00 p.m. on Thursday, June 2nd concerning the Redstone out lot for First Financial Bank. The Zoning Board approved 24 parking spaces; however the graphic panels are a problem. Mr. Bickford recommended that the front yellow panels be replaced with stone work. He recommended raising the rate to \$200. In the past year there were 10 deliveries and 8 pickups for a total of 18 non-brush usages. Most of these involved roofing tear-offs since it is cheaper to rent a truck than a roll-off box.

A motion to raise the rate to \$200 was provided by Mr. Bishop, seconded by Mr. Connor.

RECORD OF PROCEEDINGS

Minutes of the Trustees of Sycamore Township Meeting Sycamore Township, Hamilton County, Ohio June 14, 2011

The meeting was called to order at 9:00 a.m. Present for the meeting were, President Weidman, Vice President Bishop, Trustee Connor, Fiscal Officer Porter, Law Director Miller, Administrator Raabe, EMS/Fire Director Jetter, Planning/Zoning Administrator/Assistant Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown, and Sheriff Liaison Lt. Reid.

Sub House Bill 153 (Senate Budget) – Fast Food Provisions – Trustee Weidman stated that the original intent of the provisions was supposed to cover food preparation, such as trans-fat, and not intended to regulate zoning but the terminology in the bill is too loose. He went on to say that the Municipal League and O.T.A. (Ohio Township Association) were both working on clarifying this language. Trustee Weidman also suggested that the Township use its contract with GSG to help work on it. The final vote on the bill will be by the end of June.

Rob Porter asked about the estate tax bill and was informed that it ended on 12/31/12. He input \$0 in the estate tax portion of the 2012 budget being submitted to the Hamilton County Auditor to show what the difference in makeup would be.

Sheriff Patrol Update – Lt. Reid reported that deputies have been busy with the usual summertime activities, including an increase in burglaries at Kenwood Towne Centre, as well as other burglaries (predominantly vehicular) spread out throughout the Township and that they are considering increasing their presence in the Dillonvale area.

Trustee Connor complimented the Sheriffs' Department and its D.A.R.E. Program.

Upcoming Public Hearing – Mr. Bickford went over the First Financial options on the upcoming public hearing. Chief Jetter interjected that he had problems with access for emergency vehicles and would also like the building to have sprinklers and a fire hydrant installed on the property. He cited the code book on the issue. After lengthy discussion it was concluded that the Trustees wanted the hydrant, sprinkler system, no yellow on the building with stone or brick the same as Redstone, an ATM with brick on three sides and the fourth side with the computer screen facing Redstone (this would be OK in yellow) and no interior wall or graphics within ten feet of the front window. Mr. Bickford will craft the document with help from Mr. Miller.

Mr. Bickford informed the Board that the first meeting in July (July 7th) will have Neyer requesting signs for the Towers of Kenwood Project. They want two temporary signs (22' x 10') to be erected so they can be seen from the expressway, one sign to replace the existing one on Montgomery Road (100 square feet) and another sign at the entrance to their project (355 square feet). It was recommended that they be given a one year term on the temporary signage.

Mr. Bickford also stated that there will be a hearing on the Hills property at this meeting.

Nuisance Properties – Mr. Bickford presented five properties for nuisance violations:

Chief Jetter informed the Board the ISO inspection would be the week of June 21st and that the department needed to buy tarps from Home Depot to satisfy one of their requirements. The Chief also stated that there were rolling meth labs driving through the community and the Township might have to dispose of lab remnants by declaring the property a nuisance and attaching a tax lien; he suspects there might be an imminent one in High Point. The Fire Chief also reported that the rash of suicide/drug overdoses due to the product being too potent seems to have subsided.

Parks and Recreation Update – Trustee Weidman thanked Mr. McKeown for accommodating Governor Kasich by allowing him to use the Community Room for a meeting.

Mr. McKeown reported that an anonymous donor gave an extra \$5,000.00 (total of \$15,000.00) for the Festival. He stated that the concert on Saturday, June 18 would be from 8:00-10:00 p.m. at McDaniel Park.

McCauley Subdivision Road Work – Mr. Kellums talked about the McCauley Subdivision needing additional road work – the streets are 12 to 15 years old and were pulled out of the original project list due to budgetary considerations. He proposed doing a black mat to extend the life of the selected streets by six to ten years. The project would require a total of \$46,000 dollars - \$21,000 for the polyfill and \$25,000 for the black mat.

A motion to pay these purchase orders was made by Mr. Bishop, seconded by Mr. Connor. Vote: All Aye.

Schedule – Mr. Raabe presented the upcoming schedule of events.

One of the audience, Charlie Meyer, asked about the traffic light going up at the Kenwood Theater and stated that he didn't see much of a traffic flow or parking problem there.

RECORD OF PROCEEDINGS

Minutes of the Trustees of Sycamore Township Meeting Sycamore Township, Hamilton County, Ohio January 4, 2012

The meeting was called to order at 9:00 a.m. Present for the meeting were, President Weidman, Vice President Bishop, Trustee Connor, Fiscal Officer Porter, Law Director Miller, Administrator Raabe, EMS/Fire Director Jetter, Planning/Zoning Director/Assistant Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown, and Sheriff Liaison Lt. Reid.

Dental Care Plus – Currently the Township has a \$1,000 plan limit with the Center for Local Government group supplying coverage and Trustee Bishop would like to look into increasing that amount. The renewal date is August and in the interim Betsy Jameson, Personnel Director, will look into getting quotes for \$1,500 and \$2,000 limits.

Roadway Obstruction Fines – Mr. Kellums requested information on how to enforce obstruction fines; to date we have had two tickets written by the Sheriff's Deputies. It is not legal to commit double jeopardy by imposing both civil and traffic fines. Attorney Miller stated that the Fiscal Officer has the right to impose the Township fine. This is a similar problem as the one that occurred with Evans Landscaping, where they put a dumpster in the roadway and tore up the asphalt, although that was before the Township resolution was in effect. Mr. Miller will write them a letter explaining the circumstances and requesting payment of repairs that need to be made.

Parks and Recreation Update – Mr. McKeown stated that he is at the \$10,000 mark in donations and sponsorship for the Festival/Summer in Sycamore Events. Last year the Township received \$55,000 in donations. Mr. McKeown asked at what level of spending he should anticipate the concert planning for 2012. Trustee Connor would like to consider cutting the concert at the Administration Building and that he liked the Car Show but that perhaps the multiple bands there should be cut. Mr. McKeown stated that he will dissect the Car Show & Bash and come back with recommendations for the Trustees. One idea would be to use the Rusty Griswolds for 3 sets. This also would not require the cost of a stage and all the associated setup. He does not yet have a contract with the band (Guess Who) for the Festival but it is in the works.

A discussion ensued on prohibiting semi tractor-trailer parking at Schuler Park and that this would require a resolution amending and passing new park rules.

Sheriff Patrol Update – Lt. Reid reported that the Sheriff's patrol handled 113 runs at the Kenwood Towne Centre (KTC) over the holiday period, saving the Township over \$2,000 in dispatch fees. Traffic flow was considered to be the best in years with minor backups on Galbraith Road. He also reminded the Board that January 28th will be the first Driving Angels Program to be held from 9 to 12 at the Schuler Community Room.

FM Global – check presentation – Chief Jetter informed the Board that a \$3,000 check from FM Global will be presented to the Board at the Thursday night Trustee Meeting. The proceeds will be used to purchase approximately 192 smoke detectors that will be made available (for free) to residents.

Fire/EMS Invoices and Purchase Request – There were no questions or comments about the Fire/EMS invoices and purchase orders, they were approved as presented.

EMS Billing – Chief Jetter reported that Medicount advised raising rates for Advanced Life Support runs (ALS) from \$750 to \$850 and Basic Life Support runs (BLS) from \$450 to \$550. The Township collected approximately \$569,000 last year and could potentially raise \$48,000 in new revenue by doing this. Trustee Weidman was worried that increasing the rates would promote more competition by ambulance services and cause our income to decrease but the Chief that is not likely since our rates are still lower. He recommends going with Medicount's advice and if our run count decreases we will lower our rates back down. A motion to raise rates for ALS and BLS runs was made by Mr. Bishop, seconded by Mr. Connor. Vote: All Aye.

Chief Jetter also stated that the FBI still did not want anyone to respond to their fire alarm drop – they wish to handle it in-house. The Chief wants a release from the owner of the building before complying due to the liability problems associated with this. He is meeting with them next week.

The Chief also reported that there had been a fire the previous evening at KTC in the HMS store but it was minor.

Computer Hardware – Mr. Bickford requested the Board to consider replacing our current tape backup server with a new one that would allow us to utilize the Cloud. Data would be stored every 15 minutes (quicker than the current system) and there would still be offsite storage. Total cost would be approximately \$10,000 to 13,000 and it should be eligible for TIF since it will be used primarily for retention of Fire Department data. Our current server is aging and this purchase would reduce IT costs by \$9,000. A motion to purchase a new backup server was made by Mr. Bishop, seconded by Mr. Connor. Vote: All Aye.

Mr. Bickford then presented two properties for declaration as nuisances: 8437 Donna Lane and 8470 Plainfield Road.

A resolution "Providing for and Authorizing Weed Cutting and Debris Removal, Declaring a Nuisance for the Property Located at 8437 Donna Lane, Sycamore Township, OH 45236" was read. A motion was made by Mr. Bishop, seconded by Mr. Connor, dispensing with the second reading and declaring an emergency. Vote: All Aye.

A resolution "Providing for and Authorizing Removal of Trash and Debris, Declaring a Nuisance for the Property Located at 8470 Plainfield Road, Sycamore Township, OH 45236" was read. A motion was made by Mr. Bishop, seconded by Mr. Connor, dispensing with the second reading and declaring an emergency. Vote: All Aye.

Resolution No. 2012-02 passed this 4th day of January 2012.

Update/Purchase Orders Over \$2,500.00 – Mr. Raabe informed the Board of receiving the Bureau of Workers Compensation Safety Council Performance Rebate for \$3,468.44 (2% rebate).

Mr. Raabe also presented a request for \$25,000 funding from the Sycamore Senior Center. A check for \$12,500 will be cut and the Board will review finances later in the year to determine the possibility of the other half of the donation request. A motion to donate \$12,500 to the Sycamore Senior Center was made by Mr. Bishop, seconded by Mr. Connor. Vote: All Aye.

Mr. Raabe presented two purchase order's for approval. The first was for approval of the yearly Blanket Purchase Orders. A motion to approve these blanket purchase orders was made by Mr. Bishop, seconded by Mr. Connor. Vote: All Aye. The second was to Public Safety Health and Wellness for Firefighter physicals in the amount of \$15,354. A motion to approve was made by Mr. Bishop, seconded by Mr. Connor. Vote: All Aye.

Schedule – Mr. Raabe presented the upcoming schedule of events.

RECORD OF PROCEEDINGS

Minutes of the Trustees of Sycamore Township Meeting Sycamore Township, Hamilton County, Ohio January 17, 2012

The meeting was called to order at 9:00 a.m. Present for the meeting were, President Weidman, Vice President Bishop, Trustee Connor, Fiscal Officer Porter, Law Director Miller, Administrator Raabe, EMS/Fire Director Jetter, Planning/Zoning Director/Assistant Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown (absent), and Sheriff Liaison Lt. Reid.

Parks and Recreation Update – Mr. McKeown was absent due to an emergency. Mr. Raabe reported for him that in a meeting with the Car Show group, they mentioned that moving the Car Show date up a week might be prudent in order not to conflict with another show. Mr. McKeown will fill in the details when available.

Sheriff Patrol Update – Lt. Reid reminded the Board that the Driving Angels Program will take place January 28th from 9 a.m. to noon at the Schuler Community Room. He also stated that the Hamilton County Sheriff's annual report would be out soon but initial data indicated that calls for service went up 4% county-wide for the 2011 year (over 34,000 runs) and district-wide car accidents were up to 2300. He will bring a complete analysis when the report is officially released.

Fire/EMS Invoices and Purchase Request – There were no questions or comments from the Board and they were approved as presented. Chief Jetter informed the Board that the computer request memo was no longer needed since LanRM had come up with a potential fix for the problem at a much-reduced rate.

Chief Jetter supplied the Board with a written quote for putting a pump on the ladder truck. They are not currently taking trade-ins. A new truck would run approximately \$943,000. Our current truck might be worth approximately \$550,000. The changeover would cost approximately \$475,000.

Nuisance Property – Mr. Bickford discussed problems with evictions and debris consequently being tossed into the right of way (R.O.W.) by landlords/owners. The owner will place the material in the R.O.W. for possible pickup by the former tenant but the tenant may not come by to pick it up. He suggests creating a home ordinance rule that states after a set number of hours of being placed in the R.O.W., the Township will come by and pick up the material and backcharge the owner. Attorney Miller will look into setting up the mechanism on how to proceed.

Mr. Bickford then presented the following two nuisance properties: 8461 St. Clair Avenue and 3719 Mantell Avenue.

Resolution No. 2012-06 passed this 17th day of January 2012.

Recycling Report – Mr. Kellums read the Annual Report from the Hamilton County Solid Waste District. This included \$16,271.79 received by the Township in 2011. Approximately 575 tires were recycled as well as 2,982 computers/equipment. The drop-off recycling program has been well-received and participation is increasing. Mr. Kellums is also looking into other ways to increase participation in the residential curb-side recycling program.

Trustee Meeting Time Change – Mr. Raabe reminded the Board that the Thursday night meeting was being moved from 7:00 p.m. to 6:00 p.m. He mentioned that several meeting participants thought the 6:00 p.m. time slot would be an excellent permanent change for future meetings. Discussion of moving the meeting time ensued and the Board will take it under advisement.

RECORD OF PROCEEDINGS

Minutes of the Trustees of Sycamore Township Meeting Sycamore Township, Hamilton County, Ohio January 31, 2012

The meeting was called to order at 9:00 a.m. Present for the meeting were, President Weidman, Vice President Bishop, Trustee Connor, Fiscal Officer Porter, Law Director Miller, Administrator Raabe, EMS/Fire Director Jetter, Planning/Zoning Director/Assistant Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown, and Lt. Butler from the Hamilton County Sheriff's office.

Sheriff Patrol Update – No report.

Fire/EMS Invoices and Purchase Request – There were no questions or concerns. Chief Jetter did point out that the wall heater unit for the North Fire Station was purchased at McCabe Hardware because it was the cheapest place to purchase the unit.

Chief Jetter distributed a summary of run data for 2011. This included mutual aid given (381) and received (174). Blue Ash was given over 100 mutual aid runs during the year. Concurrent runs were 81 for the North, 238 for the South and 5 for the West (Reading).

Hosbrook Road Consultant Selection – Mr. Bickford requested a motion to go out for consultant selection for the purposes of obtaining cost estimates to perform installation of traffic calming and sidewalks (to Lynnfield) on Hosbrook. A motion was so made by Mr. Bishop, seconded by Mr. Connor. Vote: All Aye. The Board was informed that there had been two letters received endorsing sidewalks going all the way to Euclid. Hamilton County Engineer will put out the scope. Funding may come from TIF or SCIP. The Board definitely wants curbs included in the scope.

Parks and Recreation Update – Mr. McKeown informed the Board of the passing of Johnny Schott, long-time supplier of music venues for our Festivals, and that services will be held this Saturday in Delhi at Vitt & Stermer Funeral Home. He added that the "Guess Who" contract is in place, as well as the stage and that he is working on the backline. He is still waiting on word from the "Rusty Griswolds" to see if they will play Friday at the Festival.

Health Insurance – Mr. Raabe advised the Trustees that the abortion clause must be included back in the health care content by law starting August 1, 2012. Trustee Weidman requested that we monitor what Archbishop Schnurr is going to do with Catholics. Chief Jetter requested that we monitor the clause allowing part-time employees get coverage. They are trying to implement it in the new health care laws.

Dental Insurance – Mr. Raabe reported that our current dental insurance coverage is \$1,000 deductible; if we increase it to \$1,500 there is an increase to the Township of \$2,400/\$84 to family plan annually; increased to \$2,000 the Township input would be \$3,400/\$120 to family plan annually.

Greater Cincy Shared Services is hosting a seminar on Saturday from 8:00 am to 1:00 pm which Chief Jetter is attending. Trustee Weidman would like Mr. Raabe and Mr. Bickford to attend also.

Request for Proposal – Mr. Raabe presented a new proposal from the Hamilton County Sheriff's office: 14 non-contract cars will go away (5 Sycamore/5.5 in Symmes/4 Columbia); the Sheriff gives net number of \$69,187 for the first year, by the end of four years it is \$87,054 "fourth" only thing additional will be overtime. In the first year there will be a \$104,000 deficit; will eliminate liaison position and save \$114,578 plus car/fuel. Trustee Weidman recommends doing only two or three cars verses the five since the budget is so tight. Currently we have three twenty four hour cars-two in the south and one in the north plus a power shift car will have more dedicated sheriff's deputies on patrol than current. Lt. Reid will do D.A.R.E. and the Driving Angels Program. A motion was made by Mr. Bishop, seconded by Mr. Connor, to do away with the liaison position. Vote: All Aye. Mr. Connor suggested sending a letter of thanks to Lt. Reid and the Hamilton County Sheriff's office.

A slide show presentation on the current budget status and future problems was shown. The Fire levy will be losing \$405,000 in 2012 plus \$1.5 million subsidy from the general fund, which was done so the levy wouldn't have to be increased. The police levy will lose \$258,000. The total general fund loss will be \$3,419,987 over 5mills of levy. Total loss: \$5 million or 8mills; we can't go to residents so it was proposed to go out for bid on Request for Proposal (RFP) for Fire and EMS services. Trustee Weidman read the "Scope of Service". There was a discussion regarding the good exercise for going out to bid to see if we can reduce costs and keep the same level of excellent services. Trustee Connor commended Chief Jetter for containing costs. Trustee Weidman agreed noting that operations are expensive and capital comes out of T.I.F. A motion was made by Mr. Bishop, seconded by Mr. Connor to put out the RFP. Vote: All Aye.

The minutes of the Board of Trustees meeting held January 17 and 19, 2012 were read. A motion was made by Mr. Bishop, seconded by Mr. Connor, to approve these minutes. Vote: All Aye.

Communication from: Al Early, 8120 Glenmill Court, 37 years as a school administrator; stated that he has dealt with unions and working together helps everyone in the long term. He commented that there was no mention of the Township having budget woes in the winter newsletter. His questions were: 1) Why is the RFP being issued before warning residents? 2) Why weren't deficits made public? 3) What is the Township planning for fixing it? 4) What other cost reductions will be made? 5) What about a tax levy?

Communication from: Trace Lawless, resident Gwilada Drive; said he is a retired fireman who worked for the Township since 1996 and was a big part of the union formation. He asked why the civilian employees received a 1% raise and the firefighters didn't? Mr. Weidman said that the Administrator will meet with the union representatives any time or any place.

Communication from: Craig Coburn, resident of Bearcreek, a Professional Firefighter; said that he used to work for a private fire company early in his career, then as a fulltime Firefighter, and now a part-time Firefighter at Sycamore Township. He asked who wrote staffing requirements for the RFP? Safety standards are in question; perhaps we should go for a levy. Trustee Weidman stated that we just aren't privatizing but looking for partners; it could be another community.

Communication from: Bill Smith, resident Eldora Drive; asked if we will have to pay for fire personnel for the rest of the year if we lay them off now. He also asked why we are buying more property.

Communication from: Dennis Ulrich, president of McCauley Woods Home Owners Association; said that he works at Cincinnati State College and he compliments Chief Jetter. He stated that Princeton Schools are struggling too. He asked what the financial savings projection for contracting will be. Have we benchmarked other groups who have outsourced across the state? Chief Jetter responded that other than Loveland/Symmes and Milford Fire Departments, most fire departments have volunteers. He asked if there was any feedback from residents. Could we incorporate as a city? He noted that we have four non-contiguous parts and he appreciates the bind we are in.

Communication from: Craig Creighton, resident of Dillonvale, Vice President of the Firefighters Union; He suggested looking into the SAFER Act. He commented that we are a family and we need to work together, not raise taxes.

Communications from: Mike Walker, resident of Widhoff for 5 years and an 18 year veteran of law enforcement; applauds firemen and Trustees. He wants to know if anyone has looked into reducing wasteful spending or cutting down on unnecessary runs.

Mike Walker stated that eight Firefighters responded to a life threatening call at his house and he only one dealt with one person. He is in support of the Fire Chief and the Fire Department. Chief Jetter addressed dispatch problems and a senior population. Last year the Township spent 25,000 on EMS drugs and this year spent 12,000.

Communication from: Bill Smith, resident; he commented that he liked having eight people come to his home when he called 911.

Chief Jetter reported on receiving a FEMA Grant for \$239,203 to replace SCBA fill stations and defib. He is looking into the SAFER Grant.

Mr. McKeown reported that Johnny Schott's funeral will be this Saturday.

Mr. Bickford reported that we received a payment of \$21,000 for selling Solar RECS.

RECORD OF PROCEEDINGS

Minutes of the Trustees of Sycamore Township Meeting Sycamore Township, Hamilton County, Ohio February 28, 2012

The meeting was called to order at 9:00 a.m. Present for the meeting were, President Weidman, Vice President Bishop, Trustee Connor, Fiscal Officer Porter, Law Director Miller, Administrator Raabe, EMS/Fire Director Jetter, Planning/Zoning Director/Assistant Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown, and Lt. Butler from the Hamilton County Sheriff's office.

Bob Evans Sign - Mr. Bickford reported that Bob Evans took their sign down/put it back up with a change in the color. Zoning rules do not allow a sign to be changed structurally. Law Director Miller said that in his opinion it wasn't a structural change and it could be costing damages in a lawsuit. Trustee Bishop commented that signs are "air clutter" and asked if the same scenario would apply to the Arby's sign. Law Director Miller replied that this scenario would apply more towards non-conforming use.

Mr. Bickford will issue a double ticket for a face change and the sign being put back up. Trustee Weidman recommends review of the sign code. Mr. Bickford informed the Trustees that a review of the sign code is in progress and should be completed by June or July of 2012; the last time this was done was 2003.

Upcoming Public Hearing – Mr. Bickford advised the Trustees of an upcoming public hearing Thursday, March 1 at 6:00 p.m. for a major adjustment to P.U.D. 2008-112, surface parking lot (150 places) parking lot ISR-0.73/20' streetscape buffer/keep all curb cuts (2) on Happiness Way. He reported that the Zoning Board recommended approval (4-1) with adding more shrubs/fence on Happiness Way.

Ronald Reagan Drive – Duke Easement – Mr. Bickford reported that Attorney Miller has minor review changes to perform, adding a statement about the poured rubber mulch area along the sidewalk/roadway. The FBI is in the process of moving in although they still do not have a Certificate of Occupancy (C.O.) yet due to alterations that need to be corrected.

Parks and Recreation Update – Mr. McKeown asked the Board if they wanted to have a park detail this year. Trustee Weidman recommends holding off until we talk to the Sheriff about staffing. He informed the Trustees that entertainment for the Festival is in place which includes The Rusty Griswolds and Bluestone Ivory. The Car Show will be held from 9:00 am to 3:00 pm but the band has been cancelled. Mr. McKeown advised the Trustees that the sponsorships for the Festival are up to \$31,000 which will cover the cost of the bands.

Marlette Storm Sewer – Mr. Kellums reported that the Marlett storm sewer was built in the late 70's. He has spoken to O.U.P.S. who shows that the utilities are in the same trench 10 to 12' deep. He is trying to get the plans for it. Prus Construction priced the job lowest at \$9,000.

Kenwood Road Access Management – Mr. Kellums reported that the Kenwood Road Access Management Project is currently in the engineering phase. Burger King has issues with the program, stating that they weren't notified. Law Director Miller asked what Hamilton County's position is on the underground utilities. Mr. Kellums stated that they would defer to the Township. There is a 50% match the County will be putting money into.

2012 Road Program – Mr. Kellums advised the Trustees that he is working on the 2012 Road Program but wants to make sure that the budget is still at \$900,000; some of the work has needed to be done since 2006. He would like to crack-seal at five years and micropave at ten years which he believes can double the life of the pavement since the twelve year repaving cycle is no longer financially feasible. Mr. Kellums reported that twelve streets needed asphalt, thirteen needed sealing, and the curbs on Yakima, Garden, and Marview needed to be looked at.

Kellums 8. Schuler Memorial Park Lawn Care – Mr. Kellums reported that the ball field lawn care is more customized than the rest of the Township lawn program and advised that \$7,056.50 was spent last year. This year bids for \$7,783 (Team All Sports) and \$7925 (True Green) were received for the slow-release fertilizer and grub control program. A motion was made by Mr. Bishop, seconded by Mr. Connor, to award the contract to Team All Sports. Vote: All Aye.

Sheriff Patrol Update – Lt. Butler discussed statistics for January, 2012.

Fire/EMS Invoices and Purchase Request- There were no questions concerning invoices or purchase requests and they were approved as presented. Chief Jetter informed the Board there was an agricultural fuel spill (from a local business) near the School Road trailer park that had seeped into the nearby creek. The EPA is at the site and will be burning the contaminated cattails. There was an associated fish kill; the cause is still under investigation.

Grant Update – Chief Jetter reported that the SAFER Grant was completed and submitted last Friday. It contains four job share positions (part-time) that would be paid in full for two years.

Communication from: Mr. Kurtz, 8560 Donna Lane; said that he had three strokes last year and he wouldn't be alive today if it weren't for the Sycamore Township Fire Department; he wants to keep the present firefighters. In the past he worked for as a private paramedic and it was all about profit.

Communication from: Al Early, 8120 Glenmill Court; wants to know what are cash flow issues are for this year; do they plan on polling the voters for a tax levy?

Fiscal Officer Porter said that the budget is balanced through 2012. Trustee President Weidman is going to wait until after the March 21 deadline for the RFP to answer the question on the tax levy. Trustee Bishop said that the Trustees aren't opposed to a tax levy but want to check all options first. Trustee Connor read the statement to extend the RFP deadline to March 21, 2012.

Communication from: Greg Poe, resident 8954 Plainfield Road; said that the EMS saved his father's life and he wants to keep the professional EMS staff; he wasn't aware of the budget problems.

Chief Jetter commented that last year we were only over 14 staff 18% of the time. He stated that the fire levy has lost \$405,000 this year alone. Communication from: Anya Feldman, Wicklow resident; asked about overtime; complained about the Target store; asked if residents get voice after March 21?

Trustee Weidman said that the evaluation will take at least 30 days.

Communication from: Joel Wolf, resident of 493 Elmcrest Lane; would like to see the Township settle with the firefighters first, then move on to other options-thinks it “has a political smell to it”.

Communication from: Craig Creighton, resident 3908 Limerick Avenue; said that he is a resident, a tax payer and an employee; stated that 24/72 was eradicated to eliminate overtime; asked Tom Butt to call the Firefighters; blamed estate tax elimination for the problem along with the Trustees using general fund money for the Fire Department; 1999 was the first union meeting and the Trustees were told that they would need a levy; asked about economic growth; said that Colerain and Green Townships were the only valid comparisons.

Communication from: Trace Lawless, resident Gwilada Drive and a retired employee/non-union; suggested that a 24-72 hour schedule be put in place to save overtime – thinks that the budget can be balanced with the current employees; thinks someone will undercut the RFP to get their foot in the door.

Trustee Bishop made the following specifications for the Zoning Case 2012-01MA, Mercy Health: that screening needs to be increased on Frolic to match the garage area; screening needs to be opaque on Happiness Way and to eliminate the fence; should have two curb cuts – right in only on the first and left out only on the second, with higher curbs and signs. RECORD OF PROCEEDINGS

Minutes of the Trustees of Sycamore Township Meeting Sycamore Township, Hamilton County, Ohio April 3, 2012

The meeting was called to order at 9:00 a.m. Present for the meeting were, President Weidman, Vice President Bishop, Trustee Connor, Fiscal Officer Porter, Law Director Miller, Administrator Raabe, EMS/Fire Director Jetter, Planning/Zoning Director/Assistant Administrator Bickford, Superintendent Kellums, and Parks/Recreation Director McKeown. Lt. Butler from the Hamilton County Sheriff's Office was absent.

Neighborhood Parking – Trustee Bishop requested this item concerning parking in front of the apartment buildings on Longford Drive. Roger Bien is once again moving cars around the area and leaving them sitting for days. The Sheriff's deputies will monitor the situation.

Target Development – The Township portion of Penelope Lane is not being mowed by Target as originally agreed upon. Tracy Kellums stated that the Maintenance Department will take care of mowing it.

A resident is also objecting to the plans to put a bank on the outlot near her home on the corner. Plans show the drive-thru being placed immediately next to her house and she would like to have it placed on the other side of the bank building and is requesting help from the Trustees, even though the development is in Blue Ash. Trustee Weidman will contact her, as well as speaking with the developer.

Parks and Recreation Update – Mr. McKeown reported that there is significant wear and tear on the ball field at Schuler Sports Complex and there is consideration of converting it to a dirt infield. Moeller has indicated they would be willing to split the cost of this project which could range from \$7,000 to \$20,000 based on preliminary estimates. The field would have to be laser graded, irrigation moved and all of this done at the end of the season. Doing this would keep maintenance of the grass at a lesser amount and allow for more revenue being generated if more games could be played with the dirt infield. Mr. McKeown will continue to explore options and discuss it with Moeller representatives.

Sponsorships have already generated enough revenue to cover the cost of the bands this year and Mr. McKeown is continuing to work on additional groups. Trustee Bishop suggested contacting City Barbeque and Chief Jetter will also speak with the Seasons.

2012 Contract Mowing – The Greater Cincinnati Behavioral Group would like to perform mowing services for the Township again this year with only a 1% increase from last year which

was \$20,373.85. A motion was made by Mr. Bishop, seconded by Mr. Connor, to award the mowing contract to The Greater Cincinnati Behavioral Group at a cost of \$20,577.72.

Mr. Kellums has received an engineering cost estimate of \$24,620 from Brandstetter Carroll and will be applying for 20% money from the Hamilton County Engineer. A motion was made by Mr. Bishop to approve Brandstetter Carroll for the engineering of this project at a cost estimate of \$24,620, seconded by Mr. Connor.
Vote: All Aye.

Kenwood Road Underground – Burger King is still considering the offer for underground utilities but Wendy's will still not participate. Cincinnati Bell has submitted a cost estimate of \$190,600 for their part of the fiber optic project. A motion was made by Mr. Bishop to approve moving ahead on the project, seconded by Mr. Connor. Vote: All Aye.

Attorney Miller has started to research the median part of the project and will continue to do additional investigation.

Trash Bash – The Montgomery Community Church contacted the Township concerning a cleanup project they would like to do at Village Green. They are requesting that the Township supply a dumpster. Concern was voiced over the aspect of supplying free services to private organizations. Mr. Kellums will look further into the matter.

Sheriff Patrol Update – Lt. Butler had a meeting with Sheriff Leis and was not able to attend. He had no further updates to report through communication with Administrator Raabe.

Fire/EMS Invoices and Purchase Request – There were no questions or comments from the Trustees and the invoices and purchase request were approved as presented. Chief Jetter reported that the fire grant for the defibrillators was essentially complete – the units were in and payment had already been received from the federal grant.

C.I.C. – Attorney Miller reported that the formation of a C.I.C. (Community Improvement Corporation) has been completed and needs approval by the Trustees – this allows the Township to find additional money and provides the ability to work with the business community. A motion was made by Mr. Bishop to approve the C.I.C., seconded by Mr. Connor.
Vote: All Aye.

Comments from resident: Craig Creighton; declined to speak.

Comments from resident: Joe Steffalano, Eldora; stated that when he calls 911 he wants someone to show up. He also wants to know what cuts have been made in other departments and suggests cutting the Trustees salary instead of cutting firefighters.

Comments from: Mark Sanders, Ohio Professional Firefighters; He says that Springfield Township was successful in working out problems. He thinks that others have worked it out and that he hasn't seen any genuine concern here. He said that he is here to assist on how to get through this-he is not aware of any meaningful discussions.

Comments from residents: Pat and Mary Ashcraft, Sturbridge residents for 28 years; they said that they have listened to discussions and want to summarize their feelings with a few points. The union was \$700,000 short in their proposal; staffing levels at other communities is less why don't they have problems?

He asked that a third party negotiator be involved and suggested that we go to a levy.

Comments from resident: Charles Shelton, 11937 Third Avenue; He complained that Harry Holbert was harassing him with citations.

Comments from resident: Craig Creighton, Dillonvale resident and Vice President of the Local Firefighter Union; He disputed Mr. Ashcraft's numbers and said that they can't work within the constraints of a 1995 budget. He said that he is responsible for 100 businesses in the north and that their safety will be compromised by staff cuts. He suggested that all options be exhausted; levy is a bad word but said that he thinks we need one. He also commented that laying off 100 plus employees is not acceptable and that not letting the residents speak implies that the Trustees have a side agenda. He didn't like the fact that the staff wasn't notified of the Chief's proposal and allowed to sit down and talk.

Law Director Miller stated that he has received a settlement offer on the Philips and Edison case and that he will have a report at the next meeting.

On May 2, 2012, Fire Chief William Jetter submitted a proposal to the Sycamore Township Board of Trustees to restructure the Fire Department and achieve dramatic and necessary budget savings. The proposed plan to restructure includes the following steps:

1. The schedule will be changed to a 24/48 work schedule for all bargaining unit employees. The Township will provide 45 days’ notice to the Union, and this change will be implemented on June 29, 2012.
2. Fourteen full-time Firefighter positions will be eliminated effective June 28, 2012. The full-time employees will be laid off in accordance with their department-wide seniority. Impacted employees may exercise their seniority rights under the contract to bump to other positions. Each of these employees will be given offers to remain with the Fire Department as part-time employees.
3. All part-time employees will be laid off on June 14, 2012.
4. Eliminate the Assistant Chief – Fire Prevention position.

This proposal is now before the Board for approval. Is there a motion to authorize Chief Jetter to implement this proposal to restructure the Fire Department?

RECORD OF PROCEEDINGS
Minutes of the Trustees of Sycamore Township Meeting
Sycamore Township, Hamilton County, Ohio
December 4, 2012

The meeting was called to order at 9:00 a.m. Present for the meeting were, President Weidman, Vice President Bishop, Trustee Connor, Fiscal Officer Porter, Law Director Miller, Administrator Raabe, EMS/Fire Director Jetter, Planning/Zoning Director/Assistant Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown and Lt. Butler from the Hamilton County Sheriff's Office.

Neyer Presentation – Greens of Kenwood – Jeff Chamot, Bimal Patel, and Dan Neyer from Neyer Properties presented plans for the property next to the FBI Building for a hotel which would be 78,000 square feet. They reported that the culvert work is finished; it was paved yesterday, and is set for the second phase of the project. Most of the parking will be adjacent to the hotel but some will be under the office building. It is zoned for a seven story, 150-160 room hotel but would require too much meeting space (full service). They have decided to go with a five story, 120 room “select service” hotel; the meeting room will handle 120 people, there will also be a pool, and a fitness room. As of July, Law Director Miller said that the agreement said 160 rooms. The flagship has not given approval until the zoning is amended and the T.I.F. agreement is in place, it is all verbal at this stage. The office building will be two – five story buildings at 100,000 square feet per building. The Fire Chief would like the stairwells to be positive pressure to fight smoke.

Fire/EMS Invoices and Purchase Request – Chief Jetter advised the Board that staffing levels have been increased and salaries and costs have dropped. He presented the Fire/EMS invoices and purchase order requests which were approved as presented.

2012 Road Program Report – Mr. Kellums reported that the 2012 Road Program came in \$191,780 below budget. This was mostly due to the in-house work but it was also from \$42,000 in reimbursements from Metropolitan Sewer District and Deer Park. Trustee Bishop commended the maintenance crew on a job well done.

Step Repair – Administration Building – Mr. Kellums advised the Trustees that we have repaired the concrete steps on the side of the Administration building twice and they are crumbling again. He then gave them an estimate from Prus Construction to remove and replace the steps at a cost of \$11,600. Another option could be to put a deck overlay on them. The Board advised Mr. Kellums to get a bid on the deck option.

HVAC Contract – Mr. Kellums reported that the maintenance contract for the HVAC system currently costs \$1,880 per year from RPC Mechanical. He got bids from two other companies: Bachman \$6,600 and BPS \$5,500; the Board advised him to stay with RPC Mechanical.

Pest Control – Mr. Kellums presented three areas that might save the Township money which included: Valley Pest Control \$4,670 per year, Crystal Springs (bottled water) \$1,200 per year, and Moose Schuler (security system) \$680 per year. The Trustees directed that we discontinue the pest control and the bottled water but keep the security company.

Skid Steer – Mr. Kellums advised the Board that if we are going to continue to do a lot of the road work in-house we should purchase a Bobcat with a planer/broom. The price from Case would be \$57,047 and the price from Bobcat would be \$52,546. The Bobcat could also be used for loading salt and save \$6,500 per year in front loader rentals. A motion was made by Mr. Bishop to purchase the Bobcat, seconded by Mr. Connor. Vote: All Aye.

Upcoming Public Hearings – Mr. Bickford advised the Board that Jewish Hospital has requested a continuance until February; the Zoning Commission received approval for the Kenwood City Place Project; and a dumpster has been incorporated in screening on Cooper's Hawk Restaurant, a 30' vs. 10' set back will be requested.

Mr. Bickford presented two nuisance properties: 6330 Kugler Mill Road and 3719 Mantell Ave.

He announced the new gamma knife just became operational this week commenting that it is the only one in Cincinnati.

Mick Johnsen, architect, said that there was a sound study done on the energy building by RWDI Construction and the existing building by day is fifty five and night is fifty. The new building will be forty five decibels by day and twenty nine decibels at night; the generator will run twelve times per year. He stated that the “best practice” is not to lower the building. Trustee Bishop asked about lowering the building eight to ten feet per the original agreement. Mr. Johnsen commented that the building could be tweaked to look more like residential but he thought that the garden look/landscaping was most important since the residents would see that every morning. Trustee Connor asked about the running time and repeated Mr. Bishop’s concerns for looking more residential. Trustee Weidman suggested berming the landscape and cutting down on the number of trees.

Resident comment: Tom Kronenberger, 8029 Frolic Drive; commented that it looks like “and is” an industrial building/ out of scale and in the actual neighborhood. He said that a petition was submitted by seventy two residents opposing the Energy Building; he said they would like to see it moved to the Mercantile Building area on the southeast corner of the lot.

Resident comment: Jean Bresnan, Happiness Way; commented that they have had twenty three years of encroachment from the hospital and didn’t get an opportunity to vote on this. She wants to know who will monitor the noise/odors. She agreed with Mr. Kronenberger that the best place to put the Energy Building would be in the Mercantile Building.

Resident comment: Jim Huff; views Jewish Hospital as an asset; he concurs that the Mercantile Building would be the best place for it and asked about tax revenue from the hospital.

Resident comment: Susan Leis, Merrymaker; missed cooling towers being part of the building, asked about the smell.

The public hearing ended at 7:07 p.m.

A motion was made by Mr. Bishop, seconded by Mr. Connor, to adjourn the meeting.

Vote: All Aye. The meeting adjourned at 7:28 p.m.

Fire/EMS Invoices and Purchase Request – There were no questions or comments about invoices or purchase orders; they were approved as presented.

Nuisance Abatements – Mr. Bickford advised the Board that the Maintenance Department might be able to perform many of the nuisance abatement clean-ups; as long as they had time and it did not conflict with other duties. He suggested it might save money, as well as cutting the response time by 10 days. The Trustees approved the idea and instructed him to go forward with it.

Future Public Hearings – Mr. Bickford informed the Board that Eddie Merlot’s wants new signage in front of their property, as well as the ability to sell the adjacent outparcel. They will be coming to the first meeting in May to express their concerns.

They normally cost \$2,530 but since these are new to the area the salesman is willing to offer a discount (actual purchase cost of \$1,800) in return for the ability to use this model for advertising value. There is also the possibility of purchasing two of these portable units, one for each side of the soccer field. They also could be used at other venues, like the Car Show or Festival. After discussion, the Trustees would like Mr. Kellums to inspect the durability of the portable model.

Update/Purchase Orders Over \$2,500.00 – Mr. Raabe presented the following purchase orders:

Mr. Raabe also informed the Board that a lighting update will be done soon in the Administration Building. T-12 fluorescent light bulbs are no longer legally being manufactured and so we must switch to the more efficient T-8 models. Cost to switch will be approximately \$1,200 but with energy savings and Duke Energy grant money, the payout should only take about one year.

Butler from the Hamilton County Sheriff's Office. Planning/Zoning Director/Assistant Administrator Bickford was excused. Sheriff Patrol Update – Lt. Butler reported that fueling at the Township pump has saved about \$1,000 in the first month. He will continue to monitor the savings over the next few months but everything appears to be working quite well.

Trustee Weidman asked about a license plate reader and Lt. Butler informed the Board that the Hamilton County Sheriff currently has 2 such readers installed in county cars (non-contract) in our district (comprised of three townships). They made more than 980,000 readings last year. There are 14 deputies trained in District 3 to use the equipment. This project is a joint operation with the City of Cincinnati with regards to computer applications and processing the data.

Parks and Recreation Update – Mr. McKeown reminded the Board that the Jump and Jive Concert is from 5:00 p.m. to 7:00 p.m. at Bechtold Park. He also stated that Schuler Field hosted a national tournament last weekend and had 12 games on the field, which held up admirably. Festival preparation is also going well. And the last item concerned Moeller High School's baseball team winning the state championship. He will contact Coach Tim Held to see about getting them to come in for a resolution of congratulations.

Contract Modification-Hosbrook Road Improvements – Mr. Kellums presented a revised contract modification from URS Engineers in the amount of \$58,377.00 for the Hosbrook Road Improvement Project. 2013-2014 Road Salt Contract – Mr. Kellums requested the Board to purchase 500 tons of additional salt on the City of Cincinnati contract with Morton at a price of \$64.02 per ton (total cost of \$32,010). This would allow the Township to be on a contract just in case our current supply was not enough and more was needed during the winter. There currently are 800 tons in Miami Township's dome and we have 1,000 tons onsite at our facility.

A motion to approve the purchase was made by Trustee Bishop and seconded by Trustee Connor. Vote: All Aye.

Fire/EMS Invoices and Purchase Request – The Fire Chief handed out the monthly Budget Review and there were no questions. The Chief also discussed the possibility of changing the current handling of “treat but not transport” cases. An example would be diabetics who require saline at their residence and then feel better and do not want to go to the hospital. The Township had 68 such calls in 2012 and have had 32 so far this year (through May). By soft billing the patients the Fire Department could potentially recoup \$20,000 to \$25,000 in additional revenue a year.

Sycamore Township, Hamilton County, Ohio
October 1, 2013

The meeting was called to order at 9:00 a.m. Present for the meeting were President Weidman, Vice President Bishop, Trustee Connor, Law Director Miller, Planning/Zoning Director/Assistant Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown, Fire Chief Gerome, and Lt. Kettelman from the Hamilton County Sheriff's Office. Fiscal Officer Porter was excused.

Sheriff Patrol Update

Lt. Kettelman reported the monthly stats had been delivered electronically and asked if there were any questions.

Parks and Receptions Update

Mr. McKeown discussed the addition of a batting cage in Schuler Park. Several locations were discussed. Mr. McKeown recommended placing it on the north side of the park, north of the salt depot access road. The cost of the cage ranges from \$10,000 to \$18,000 depending on the type constructed. Xavier University uses a mesh netting style cage which is cheaper than the chain link fence style cage. Mr. Kellums stated that the necessary concrete work could be completed in house.

Mr. Kellums stated that he would like to run water and potentially sewer to the rear maintenance facility and that could impact the potential batting cage location. The Board directed Mr. Kellums to research the costs necessary to extend the water and sewer.

Mr. Connor asked why that location is better than behind the fence. Mr. McKeown stated access could be easier and there is more room.

Mr. McKeown reported that funding for the cage could come from the Schuler Park Fund which has about \$86,000 in restricted funds that can only be spent in the park.

Kenwood Road Update

Mr. Kellums reported that Kenwood Road remains on schedule. The median is now under construction and should be completed within two weeks. Duke and Time Warner are prepared to make final utility connections and Cincinnati Bell will complete their crossovers within two weeks.

Bechtold Park Parking Lot

Mr. Kellums reported that the parking lot for Bechtold Park is in need of major repairs. Some of the work is being done in house but the final sealing of the lot will require an outside contractor. Mr. Kellums recommends that a bid from Louiso for \$8,960 be accepted.

Mr. Weidman asked if this repair was in the budget. Mr. Kellums indicated that it was.

Mr. Kellums reported that the lot will also need to be restriped after it is sealed. The cost should be around \$1,500 and he has requests for quotes out to several firms.

Mr. Bishop made a motion, seconded by Mr. Connor, to direct Law Director Miller to prepare a resolution to accept the Louiso bid. All voted, yes.

Medic 292

Chief Gerome reported that Horton Emergency Vehicles submitted a \$224,500 quote for a new squad to replace Medic 292. The quote is based off the state bid.

Mr. Weidman asked if the fire capital funds would pay for the squad. Mr. Bickford reported that it could.

Mr. Bishop made a motion, seconded by Mr. Connor to direct Law Director Miller to prepare a resolution to purchase the squad. All voted, yes.

Station 92 Kitchen

Chief Gerome presented three quotes for the renovation of the Station 92 kitchen. All quotes were based off of the same specifications with the lowest being from Wietmarschen Construction, LLC in the amount of \$36,490. In addition, quotes were received to rehabilitate the floor on the main level. J Wesselman Specialty Flooring submitted a quote of \$6,491.94 to grind the old floor out and replace it with epoxy.

The Board directed Mr. Kellums, Mr. Bickford and Law Director Miller to research the minimum competitive bidding thresholds in light of the new budget bill.

Kenwood Towne Center Holiday Staffing Proposal

Chief Gerome reported that he is working with the Towne Centre to place a medic inside the Towne Centre for the busiest times during the holiday season to improve our response. The Board concurred with the idea.

Fire Purchase Requests / Invoices

Chief Gerome presented the current fire purchase requests and invoices to be paid. Mr. Connor asked about the first item, "Alert All". Chief Gerome report that it is for community relations material to hand out to the schools and other community groups.

All bills / invoices were approved as submitted.

Galbraith Road Utilities

Mr. Bickford reported that Duke Energy will be replacing the main feeder line on Galbraith Road and, if the Board was so inclined, this may be an opportunity to underground the utilities on Galbraith. However, placing the utilities on Galbraith Road underground could delay the slip lane project.

The Board directed Mr. Kellums and Mr. Bickford to research the issue further.

Property and Casualty Insurance

Mr. Bickford reported that the 2014 property and casualty insurance premium is \$51,953 with Pillar Insurance.

Mr. Bishop made a motion, seconded by Mr. Connor to approve the purchase order for the Insurance Premium.

Upcoming Public Hearings

Mr. Bickford reported that the two public hearings (Case 2013-05MA and 2013-06MA) were both still on for Thursday night beginning at 6:30pm.

Nuisance Property

The resolution “Providing for and Authorizing Weed Cutting and Debris Removal, Declaring a Nuisance for the Property Located at 8965 Eldora Drive, Sycamore Township, OH 45236” was read. A motion was made by Mr. Bishop, seconded by Mr. Connor, dispensing with the second reading and declaring an emergency. Vote: All Aye.

At the time, they did not report that there were several "adults" trick or treating who did not have children with them and they were not residents of the neighborhood. RECORD OF PROCEEDINGS
Minutes of the Trustees of Sycamore Township Meeting
Sycamore Township, Hamilton County, Ohio
October 15, 2013

The meeting was called to order at 9:00 a.m. Present for the meeting were President Weidman, Vice President Bishop, Trustee Connor, Fiscal Officer Porter, Law Director Miller, Planning/Zoning Director/Assistant Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown, Fire Chief Gerome, and Lt. Kettelman from the Hamilton County Sheriff's Office.

Sheriff Patrol Update

Lt. Kettelman reported that two extra patrols will be on the road for Halloween at no cost to the Township. The officers will be patrolling the neighborhoods and handing out candy.

Parks and Recreations Update

Mr. McKeown reported that Mount Notre Dame has finished their soccer season at Schuler while Landmark and Cincy United have a few weeks left. All parks will continue to see activity on the field thru late November.

Rentals at the Schuler Community Room continue to be ahead of previous years and there is a lot of interest in renting it.

Mr. Weidman requested an update on the batting cage location and Mr. McKeown reported that they are still looking into where in Schuler it can be located.

Kenwood Road Update

Mr. Kellums reported that the Kenwood Road median is complete and the final electric switch-overs are in the final stages. Restoration of the right of way is beginning and asphalt work will begin the Week of October 28.

Galbraith Road Utilities

Mr. Kellums updated the Board on the potential of placing the Galbraith Road utilities underground. Based on preliminary information from Duke Energy, placing the main electric feeder line underground will allow the Township a simpler path to placing all of Montgomery Road utilities underground and could eliminate the 4 poles on the Towne Centre property.

The Board directed Mr. Kellums and Mr. Bickford to pursue consultant selection to place the Galbraith and Montgomery Road utilities underground.

Radio System

Chief Gerome reported that an upgrade and repair of the existing Cityband radio system is required at a cost of approximately \$235,000. As an alternative, the existing 800 MHz radio system could be upgraded to function similar to the Cityband for a cost of approximately \$16,000.

The existing 800 MHz radio system, if upgraded, could also allow the Township to work with other communication / dispatch entities in the future without the need to purchase a new radio system. The Cityband radio system would then become a mobile to mobile operation instead of having the ability to broadcast Township wide. The Township and countywide broadcast function could be handled by the upgraded 800 MHz system. As a result, the current towers and

repeaters could be abandoned saving the Township over \$23,000 a year in current maintenance costs that would no longer be required.

The Board directed Chief Gerome to receive a final price from Motorola and Mobilecom to upgrade the 800 MHz system.

Hazard Mitigation Resolution

Chief Gerome stated that this resolution would be presented on for Thursday.

Fire Purchase Requests / Invoices

The invoices were not prepared for the workshop and will be ready for Thursday evening.

Cincyscape

Mr. Bickford reported that the opt out timeframe for Cincyscape was by November 1, 2013 and that our Cincyscape liaison, Jeanette Altenau is leaving WKRC. The Board discussed how Cincyscape was utilized and various options on how to continue with video production should the Township opt out.

Mr. Bickford explained that when Cincyscape started 7 years ago, the options for video production and hosting were limited and Cincyscape filled that void. However, today, there are more options to consider for video production and hosting.

Mr. Connor stated that he could provide estimates for approximate cost factors for various events for budget planning purposes.

The Board directed Mr. McKeown and Mr. Bickford to compile a list of potential events.

Kenwood City Place

Mr. Miller reported that the right-of-way acquisition on Hosbrook / Montgomery Roads has mortgages and other items that will need to be corrected before closing can occur. Most notably is a notice of commencement that was filed on the property that could cause problems if mechanics liens are filed. He believes this issue can be worked out with the seller’s council.

Mr. Bickford reported that the Township is the recipient of three grants, one for Sycamore Road in the amount of \$5 million, for Fiber Optics in the amount of \$1 million and for the Montgomery Road sidewalk in the amount of \$600,000.

Mr. Bickford also brought up a couple possible sidewalk projects. He said on Cornell Road there is a gap between where the City of Montgomery's sidewalk ends and the Township's begins. He asked if the Trustees would like to investigate the cost to put in about 20 feet of sidewalk to go across the bridge and close the gap. The money would come out of the Cornell TIF. The Trustees directed Mr. Bickford to explore the cost of this project.

The second possible sidewalk project to consider would be the addition of a sidewalk along Montgomery Road in front of Arby's and Party City/Pier 1 Imports near the intersection of Hosbrook Road. It would still be impossible to walk from there to the Kenwood Towne Centre because of the I-71 ramp. The Trustees decided there would be no point in adding the sidewalk because of the location of the ramp.

Mr. Bickford said that the Zoning Compliance Plan is in the process of being completed and is close to approval for the Northcreek construction project.

Sycamore Township, Hamilton County, Ohio
January 13, 2015

The meeting was called to order at 9:00 a.m. Present for the meeting were Trustee Bishop, Trustee Connor, Trustee Weidman, Fiscal Officer Porter, Law Director Miller, Administrator Bickford, Superintendent Kellums, Parks/Recreation Director McKeown and Fire Chief Penny and Lt. Kettelman from the Hamilton County Sheriff's Office.

Organization of the Board

Mr. Porter opened the meeting. Trustee Weidman nominated Trustee Connor for President of the Board. Trustee Bishop seconded. Mr. Porter called the roll. All voted Yes.

Trustee Weidman nominated Trustee Bishop for Vice President of the Board. Trustee Connor seconded. Mr. Porter called the roll. All voted yes.

EMS Billing

Chief Penny reported that he is recommending a change in EMS billing rates due to an increased cost of doing business. He has met with Medicount on the issue and they feel that our change in rates is justified based on what other communities are charging and collecting. Our rates will be in line with Loveland-Symmes and Forest Park and will be lower than Mariemont.

Mr. Miller will prepare a resolution to adopt the new rates.

Sheriff Department Update

Lt. Kettelman reported that he is still waiting on the final year end statistics report and will forward them on when they arrive.

Lt. Kettelman noted that there were over 12,000 dispatches and 1,100 crashes in 2014 with 228 on I-71 and 95 on I-275. Sycamore Township was number four of all Hamilton County Communications Center agencies in number of dispatches.

Festival Committee / Rules

Mr. McKeown presented a preliminary set of rules for booths and other outside entities that wish to participate in the Festival in Sycamore. He also recommended the formation of a committee that will oversee the festival and handle the booth registrations. The committee will be appointed by the Trustees.

The Board advised Mr. McKeown that they will look over the list of rules and provide comments before it is finalized.

The resolution "Authorizing a Contract with the Full Magilla, LLC for the Performance of Kansas" was read. A motion was made by Mr. Weidman, seconded by Mr. Bishop, dispensing with the second reading and declaring an emergency. Mr. Porter called the roll. Vote: All Aye. Resolution No. 2015-01 passed this 13th day of January, 2015.

Mr. McKeown reported that Deez Guys from Hilton Head requested \$13,000 to perform at the Festival.

Mr. McKeown reported that the group that runs the Car Show is unable to hold the event on the regularly scheduled weekend and is looking for another date. Mr. McKeown will work with the group to find a possible alternative date.

Maintenance Update

Mr. Kellums reported that a stop sign was requested on Kennedy Lane at the intersection of Kennedy and Shadetree Drive. Mr. Kellums, Chief Penny, and Lt. Kettelman feel it is not warranted and recommended that it not be installed. The Board concurred with staff.

Mr. Kellums reported that the utility work was ready to resume on the Hosbrook Road project and ODOT would be starting the ramp work at Montgomery and I-71 in April.

Mr. Kellums reported that Sibcy Cline had received alleged water damage from an improperly sealed utility conduit run as a result of the Hosbrook Road project. The contractor is looking into why the conduit was not sealed. Mr. Miller stated we could withhold payment to the contractor for the issue should they not fix the situation.

Mr. Kellums stated he is meeting with Water Works about the fire stand pipe issue for the Kenwood City Place development and will provide an update after the meeting.

Mr. Kellums reported that the owner of 4697 Orchard Lane, which is a rental property, is requesting the Township reimburse them for work they did in removing a tree branch that fell on the property. The tree in question is located on Township property. Mr. Kellums noted that the owner contacted the Township to repair the fence that was damaged by the branch but did not request the branch removed. The owner also claims they did not know who the owner of the property was and that's why the branch was removed by a contractor. However, the dates provided on checks and invoices do not match with the date the fence was repaired. The Board is inclined not to pay for the branch removal.

Electric Aggregation

Mr. Bickford reported that the Township has received a favorable rate for electric aggregation with Duke Energy Retail at 5.84 cents per kW/h. The rate will go into effect in March, 2015 and will be locked in for 33 months. Account holders who are with Duke Energy Utility will receive an opt out notice later in January and will automatically be included in the program unless they specifically opt out. Duke Energy Retail customers will be able to switch to the lower aggregated rate without penalty later in February; however, they must contact Duke Energy Retail directly to make the switch. Mr. Bickford stated more details will follow next week once the exact dates are determined.

ODOT Jobs and Commerce Grant

Mr. Bickford reported that the previously awarded then cancelled grant has been refunded and the Township is eligible for up to \$135,000.

Solid Waste District

Mr. Bickford reported that the Township is progressing on the formation of the group and a draft bid document would be ready soon. However, a countywide Township Solid Waste District is unlikely due to the economies of scale and logistics of solid waste hauling. We are more likely to partner with Symmes and Anderson Townships on a district.

Consultant Agreement Resolutions

Mr. Bickford requested that this item be tabled until Thursday's meeting.

Appointed Boards

Mr. Bickford reported that the terms of Mr. Rich Barrick, Zoning Commission and Mr. Jeff Heidel, Board of Zoning Appeals expired on December 31, 2014.

Salt Dome

Mr. Kellums reported that he has done a preliminary investigation on the construction of a new salt dome in Schuler Park. A 1,200-1,300 ton dome could be built for approximately \$200,000. Mr. Kellums recommended that the possibility be further studied.

Mr. Bishop made a motion, seconded by Mr. Connor, to direct Law Director Miller to prepare a resolution authorizing a contract with Brandstetter Carol for engineering studies for a new salt dome. All voted yes.

Montgomery Road Sidewalk Phase Two

Mr. Kellums reported that the sidewalk grant requires new standards for sidewalks constructed with Federal funds which include a seven (7) foot wide sidewalk. By doing this, the grant may cost more money than building it outright with local funds per the current ODOT standard which is five (5) feet wide. The additional two feet in sidewalk width will require property acquisition and a large retaining wall. Brandstetter Carroll is studying the issue and will report their findings next month.

Mr. Bickford reported that the sidewalk will be constructed with Kerrington TIF funds.

Truck and Equipment Purchase

Mr. Kellums reported that the department is in need of a new stake body truck as well as new leaf machines. A new stake body truck is approximately \$90,000 and leaf machines are approximately \$15,000 each. Mr. Kellums requested that, instead of a single use stake body truck, the Trustees consider purchasing a swap bed truck that could function as a stake body truck, a boom lift truck and a salt truck. The Township has need for all three and purchasing one truck that can do all three jobs has a large potential cost savings. Purchased separately, all three trucks and four leaf machines would cost over \$270,000 versus \$180,000 for the swap bed truck, the three beds, and four leaf machines.

Mr. Kellums requested to break the purchase up over two years. Mr. Connor made a motion, seconded by Mr. Bishop, to prepare bidding documents and specifications for the swap bed truck. All voted yes.

EMS Cots

Chief Penny reported that the grant for the power cots expires in 90 days. The grant reduces the cost of the cots down from \$30,000 to \$11,000.

Mr. Bickford stated the cots could be purchased using TIF funds.

Mr. Bishop made a motion, seconded by Mr. Connor to approve the purchase of two power cots. All voted yes.

Festival Committee

Mr. Bickford stated the resolution establishing a Festival Committee was tabled from last meeting for more discussion. He suggested that instead of five year terms, the members be limited to three year terms. Mr. McKeown felt that three committee members would be sufficient. Mr. Connor agreed and stated that there are many people who may want to serve on that committee.

Mr. Bickford stated that Mr. Miller will modify the resolution accordingly.

Tobacco Policy

Mr. Bickford stated the resolution regarding a tobacco policy was tabled from last meeting for more discussion. Mr. Bishop stated that a ban on tobacco in Township buildings and vehicles was appropriate but noted he felt that, if given their supervisor's permission, smoking was acceptable outside while on a break and not performing a Township job function away from the office. Mr. Connor agreed.

Mr. Miller will update the resolution and present it for the Board's consideration.

Upcoming Public Hearings

Mr. Bickford presented the three cases (2015-01P2, 2015-03P2, and 2015-04MA) that were recently heard by Zoning Commission. Their public hearings are scheduled for March 5, 2015 at a time TBA.
